REPORT OF THE SCHOOL BOARD.

The School Board of New Boston submit the following report :

As our school year does not close until the first of August, we will make our report as brief as possible. In our work this year we have endeavored to give all an equal chance. In the summer and fall we maintained nine schools of practically ten weeks each. In the winter we thought best to carry the children in district No. 15 to district No. 16, otherwise both schools would have been very small. The high school has had three terms of eleven weeks each. A course of study has been adopted (a copy of which you will find in our report) and we believe that we have a school that any town may be proud of. Although establishing this school has led to the purchase of a few new books, yet we trust that the bill of supplies reported by the selectmen (which includes \$21.29 of last year's bill) is within the limit of reason. In the line of repairs, schoolhouse in district No. 8 has had two good coats of paint. The blinds have been repaired, that "crooked fence" has been removed, and the lot has been graded to some extent. The board had some difficulty in obtaining a water privilege, but finally made arrangements with James N. McLane for a right to dig a well on his land, and water has been brought from there to the schoolhouse entry. Although it was somewhat expensive yet we feel well satisfied. Schoolhouse in No. 5 has been well and thoroughly repaired and enlarged by your committee chosen at the last annual meeting, and various other repairs have been made by the board. This year schoolhouses in districts Nos. 2, 15, and 16 will need a coat of paint, and some change will be necessary in No. 4 before long.

REPORT
OF THE
TRUSTEES OF NEW BOSTON CEMETERY,
FOR THE YEAR ENDING FEBRUARY 22, 1896.

The flight of time again calls us to pause and review the changes that have occurred in the ranks of those who one short year ago were struggling with us in life's army. We annex herewith the report of the superintendent to us, showing the interments and removals; and while in the course of nature there must inevitably some fall from the ranks, we all have reason to be devoutly thankful to a kind Providence who has so guarded us that the reaper, Death, has gathered but few comparatively. You will notice the mortality has largely been among those who had passed the meridian of life, but all, the child just budding into life, the comparatively young on whom life's burdens pressed lightly, the aged, identified for many years with the town's history and finally sinking under the burden of age, and "the stranger within our gates," have passed from our sight.

We have no suggestions to make except to express the hope of your favorable action on the article we have inserted in the town warrant, asking the grant to the cemetery of the small, unoccupied, and hitherto neglected triangular piece of land above the cemetery, where by a little care, a pretty shaded spot, overlooking the cemetery and commanding a fine view for all who visit it, can be obtained. We expended a few dollars last autumn cleaning out the briars and under-brush, and trimming up the best of the small trees, hoping that the desirability of conveying it to us would be thereby

demonstrated. While we recommend the painting of the hearse, also some desirable improvements at the hearse house, still these matters can be acted on at any time by conference with the selectmen as to the necessity of the required outlay. We commend the general improved care of the cemetery the past year and ask the same generous co-operation in the future that you have given us in the past.
